

RS wash

Perfect finish for dental products from the printer: automatic and environmentally-friendly cleaning.

The RS wash automated cleaning system boasts several new features to make cleaning particularly safe and easy (patents pending). Fully automatic cleaning in just about 6-8 minutes and clean handling of sticky resins are made possible. The consumption of cleaning agent is reduced to a minimum, while ensuring optimal results.

For easiest handling, the RS wash is equipped with a data link to the printer to preselect the correct cleaning program and the matching cleaning agent.

Performance parameters	RS wash
Volume	130 × 75 × 60 mm
Cleaning time	approx 6–8 minutes (depending on material)
Cleaning medium	Isopropanol, metylalcohol, anorganic, ... (depending on material)
Connections	WLAN/LAN
Dimension (W × H × D)	230 × 270 × 450 mm

Integrated 6" touch-screen
