

Marketing

India has a large farming community spread over diverse geographical and climatic conditions. For over 8 decades, the company has been selling its products in the domestic markets. We have a 1500 strong dealer network in India that helps us reach our products to the farthest corner of the country. Our products have been well respected for many years by the farming community in all parts of India.

In our endeavor to expand our markets, we crossed the India borders and started to export our products in 1987. Today our products are being consumed in over 35 countries world wide. We are continuously adding new Products to our line to meet our growing global customer demands. Our global clientele is a standing testimony to the quality of our products.

About Us

The Scientific Fertiliser Company Private Limited is one of India's leading Manufacturer and Exporter of Pesticide Formulations for use in Agriculture and public health.

Origin of the company can be traced back to the year 1938, when it came into existence as a manufacturer of fertiliser mixtures and micro nutrients. During the course of time, the company has added a lot of products to its offering including different types of Pesticides, Insecticides and Agrochemicals. For over 80 years, the company has been committed to serving the world farming community with its quality products.

Today the company offers a wide range of insecticides formulations, fungicides formulations, combination products and public health products. The company exports its products to over 35 countries worldwide and has maintained a good reputation as a reliable and quality producer. For the years 2001-02, 2003-04, 2005-06 and 2009-10, the company was awarded certificates of merit by the Chemical Export Promotion Council of India (A Govt. of India body) for its 'Outstanding Export Performance'. In 2018, the company was the recipient of "EXPORT EXCELLENCE AWARD" from PMFAI.

Infrastructure

Being one of the pioneers in pesticides manufacturing, the company has always placed a lot of emphasis on having world class infrastructure to manufacture pesticides formulation using the most modern and Advance Technologies. The Company is continuously upgrading and updating its infrastructure to offer quality pesticides formulations. Right from its inception and all through the years, the company's main focus has been to provide the best quality products conforming to International standards at reasonable prices.

The company offers a wide range of latest Pesticide Formulations are available as Emulsion Concentrate (EC), Suspension Concentrate (SC), Soluble Liquid (SL), Soluble Powder (SP), Wettable Powder (WP), Water Dispersible Granuls, Emulsion in Water (EW), Capsules Suspension (CS) and Micro Emulsions (ME).

All the products are made from its three state-of-the-art plants strategically located in India. The company has been constantly upgrading its infrastructure to offer latest technology and more eco-friendly products. The company together with its agency division currently has over 200+ people strong work force.

The company has the following facilities:

- 3 state of the art manufacturing locations in India
- Formulations like EC, SC, SL, SP, WP, WDG, EW, ME, CS
- Well Equipped Laboratories with latest equipments including HPLC
- Highly qualified staff and technicians to ensure quality

The company has fully automated packing lines for filling and packing its products. In addition to this, each facility is well equipped with in-house testing labs and process control equipments to ensure that consistent quality is maintained for all products manufactured by the company.

Quality

We have been accredited with ISO 9001:2015 certification by TUV Germany for all our manufacturing plants. The company is committed to providing quality products to its customers. Every product is subject to stringent quality control norms to ensure that our customers get only the best products. Our customers in India and overseas have appreciated our quality consciousness for the last 80 years.

All our manufacturing locations have an in-house Quality Control department. The department is well equipped with the latest testing equipments and well trained staff.

All the items from raw materials, packing materials to finished goods undergo strict inspection and quality control. Every export order is accompanied by our quality certificate. With products selling in over 35 countries, we constantly strive in our efforts to improve the quality of our products by adopting the industry best practices.
