

Help Mac Find His Way to the Chiropractor!

Mac enjoys visiting his chiropractor because he helps him get well and stay healthy. Sometimes Mac doesn't know it but the vertebrae in his back are out of place. Mac's doctor adjusts the vertebrae to the proper position and removes pressure from his nerves. After adjustments, Mac feels much better. How do you feel after you visit your chiropractor?

DID YOU KNOW?

There are 31 pairs of nerves that extend from your brain through your vertebrae to all the different parts of your body. Visit your chiropractor regularly to maintain a healthy spine and your body will thank you later!
