

D10+ capsule

The quick and easy solution for fast 3D printing of dental products in daily dental practice.

The single-use capsule system enables immediate availability of local 3D printed parts. Validated workflows and a very easy handling of the capsule technology allows creation of perfect results without 3D printing specialist knowledge. Local data preparation or cloud connection to labs or design centers make unique workflows possible.

Performance parameters	D10+ capsule
Building area	90 × 60 mm and 30 × 60 mm (depending on capsule in use)
Native pixel	+/-42 µm
