

### About Us

Dru Benn and Juan Menchaca are the cofounders of Aguasol Energy LLC, operating as Credible Solar and Roofing, a Texas-based solar and battery installation company recognized by Forbes Home as one of the top local solar installers in 2024. Dru launched his solar career at 21 and quickly built a multimillion-dollar solar sales organization known for its 5-star customer satisfaction. Determined to master every aspect of the business, Dru became an electrician and partnered with one of his mentors, Juan Menchaca, in 2024. Juan, a U.S. Army veteran and retired Engineer Captain, brings over two decades of leadership experience and has overseen the installation of more than 35MW of solar projects, including large-scale installations like the 1.2MW system at Sheppard Air Force Base. With Juan's technical expertise and Dru's sales and marketing innovation, the duo has been setting the standard for credible solar work in Texas & Oklahoma.

# Tesla's mission is to accelerate the World's Transition to Sustainable Energy

### Solar Roof

Solar Roof is an integral part of this vision.

Part of Tesla's mission is to provide homeowners with the ability to generate their own clean energy from the sun with seamless solar that can withstand severe weather and environments.

Every new roof should be a Solar Roof!

#### Master Plan Part 3: Building a Sustainable Energy Economy

"In order to transition to a sustainable energy future where everything is electric, we need a tripling of electrical output" – Elon Musk

### Beautify Your Home

## Enhance Your Home's Aesthetic

Solar Roof doesn't look like traditional solar panels, and your friends, family and neighbors won't even know it's there.

Share your excitement with family, friends and neighbors!

### Enhances the Appearance of Any Home

 $\Gamma \equiv 5 L \pi$ 

### Power Outage?

Tesla Powerwall 3 can provide your home electricity even when your neighborhood does not have power.

### Complete Protection From Outages

Powerwall 3 is a powerful battery solution, cost effectively backing up your whole home and refilling with solar power from Solar Roof

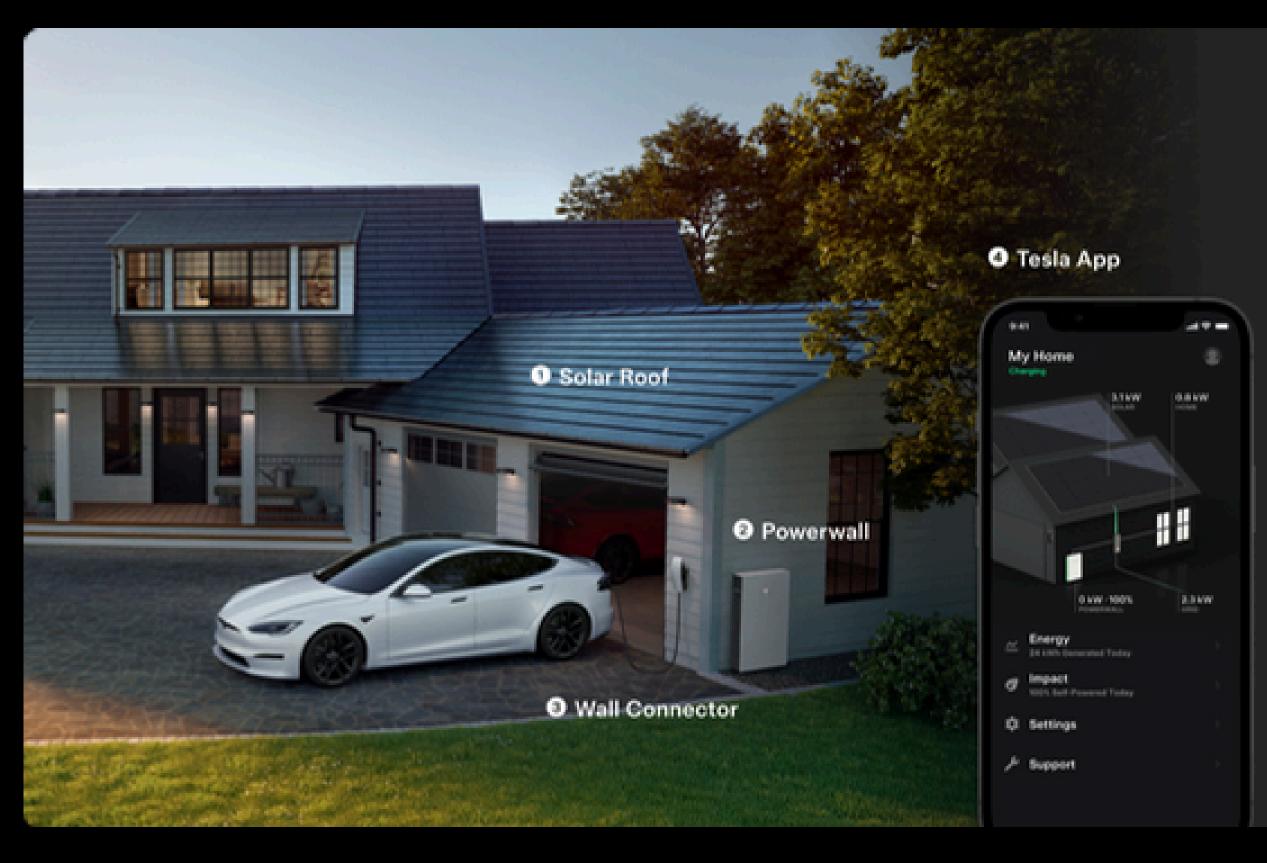

#### **Protect your family!**

- And house keep everything running, water, refrigeration, internet
- Be ready to fight a fire with a pump, cut a tree with a saw, whatever nature throws at you Features
- Solar powers your home and recharges the battery every day
- Start large appliances like Air conditioners
- Storm mode knows when bad weather approaches
- Heat mode protects the battery on the coldest of nights
- Tesla App keeps you informed so you know how much power you have left

T = 5 L =

### Tesla Energy Ecosystem

All Tesla products are designed to work together seamlessly. And with over-the-air software updates, they get even better over time.

### Protect Yourself From Rising Utility Rates

- The cost of Power has gone up every year across the US
- Produce your own electricity and save on your electric bills
- Get return on investment from your land/roof
- Texas is the *future* hot-spot for AI, Data Centers, Bitcoin mining- and a lot of them are plugging into the public utility grid. This will drive demand through the roof for electricty.
- Tesla Roof paired with Tesla Powerwall also reduce delivery charges from the utility provider.

#### Texas Electricity Rate Increases Past 4 Years

Price per kWh - TDU charges included										
Month	AEP-TCC	AEP-TNC	CenterPoint	Oncor	TNMP	Base				
Feb 2025	18.9¢	18.9¢	18.9¢	18.9¢	18.9¢	\$4.95				
Jan 2025	18.9¢	18.9¢	18.9¢	18.9¢	18.9¢	\$4.95				
Dec 2024	17.9¢	17.9¢	17.9¢	17.9¢	17.9¢	\$4.95				
Nov 2024	17.9¢	17.9¢	17.9¢	17.9¢	17.9¢	\$4.95				
Oct 2024	18.9¢	18.9¢	18.9¢	18.9¢	18.9¢	\$4.95				
Sep 2024	19.9¢	19.9¢	19.9¢	19.9¢	19.9¢	\$4.95				
Aug 2024	24.7¢	24.7¢	24.7¢	24.7¢	24.7¢	\$4.95				
Jul 2024	25.5¢	25.5¢	25.5¢	25.5¢	25.5¢	\$4.95				
Jun 2024	17.9¢	17.9¢	17.9¢	17.9¢	17.9¢	\$4.95				
May 2024	17.9¢	17.9¢	17.9¢	17.9¢	17.9¢	\$4.95				
Apr 2024	17.9¢	17.9¢	17.9¢	17.9¢	17.9¢	\$4.95				

Statewide Texas has seen electricity rates as low as .03 cents over the past .25 cents in the last 2 decades.

### Protection From Hail

#### Solar Roof has a Class 4 Impact Rating

- The highest resistance score for roof shingles and building materials.
- Can withstand the impact of a 2-inch steel ball dropped from 20 feet.
- Reduces the likelihood of leaks and repairs.
- · Golf Balls, etc

### Protection From Wind and Hurricanes

#### Prepare for the next storm

Tesla solar roof has the highest Wind Rating

Standard up to 156, glass can go up to 194

House on the right is after Hurricane lan in 2022

Florida Insurance Commissioner recommending higher quality roofing <a href="https://www.roofingcontractor.com/articles/100280-florida-puts-asphalt-shingles-in-the-crosshairs?v=preview">https://www.roofingcontractor.com/articles/100280-florida-puts-asphalt-shingles-in-the-crosshairs?v=preview</a>

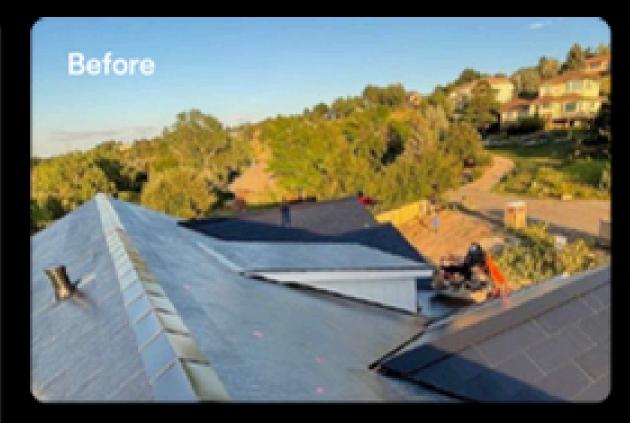

### Better Protection From Fire

There are many reasons a home can survive a fire, or tragically fall to it. Solar Roof has a Class A Fire rating.

Solar Roof provides the highest fire resistance rating available.

Made possible by metal construction with Tesla underlayment.

These pictures are from an actual fire in and around Louisville Colorado in December 2022

### Cool Roof Compliant means Improved Energy Efficiency

- Actual image from 2 townhomes next to each other in Virginia.
- Despite being made of metal materials and a black color roof, the Tesla solar roof COOLS your house compared to an asphalt roof!
  - Designed to meet the toughest standards including being California Cool Roof Compliant
- It does this in multiple ways
  - The solar panels absorb much of the sunlight and turn it into electricity.
  - Designed with a built in 1.35" air gap to cool the solar panels + vented risers at the eave allows the air to flow through and cool the roof itself and the solar panels to increase power production
  - The air gap also results in keeping the hot sun off your roof deck directly.

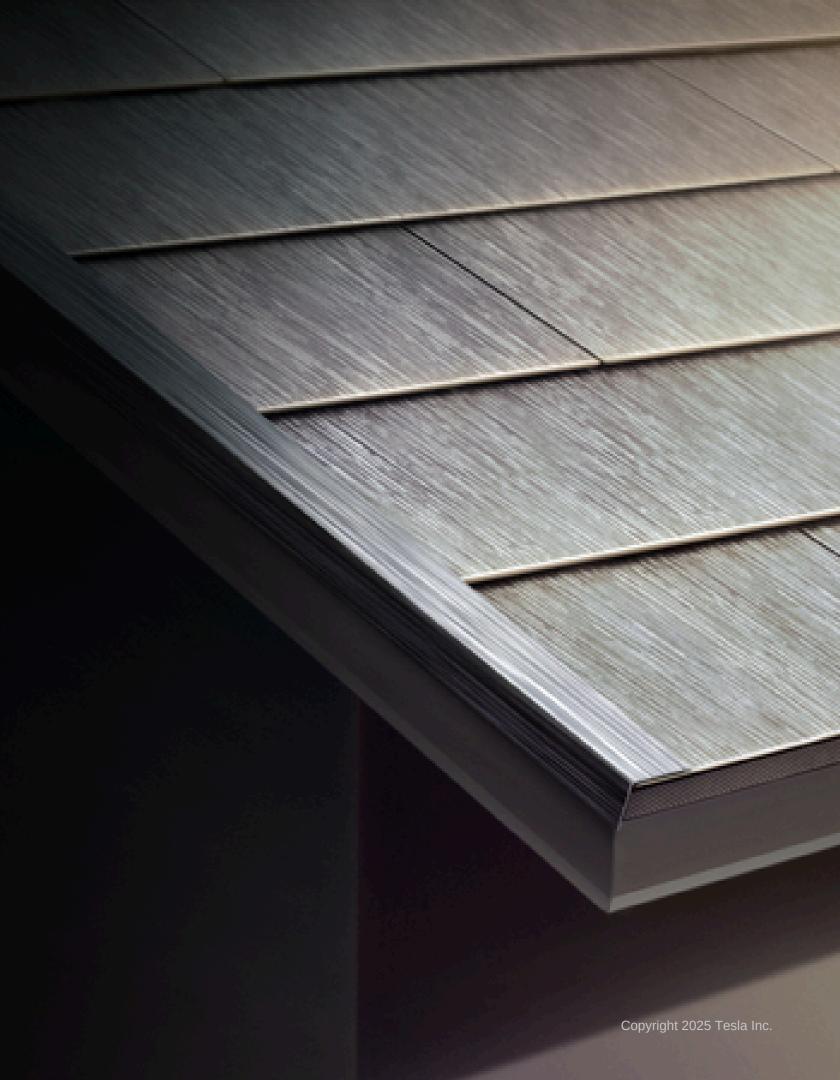

### Finance your Solar Roof

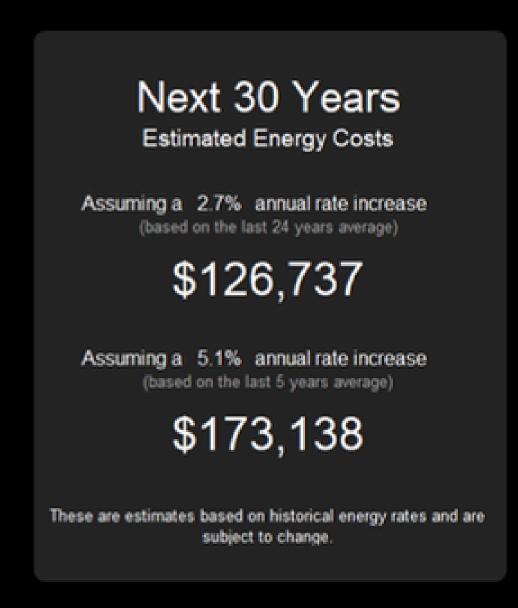

With a simple loan at market rates, Solar Roof is now easier than ever to own

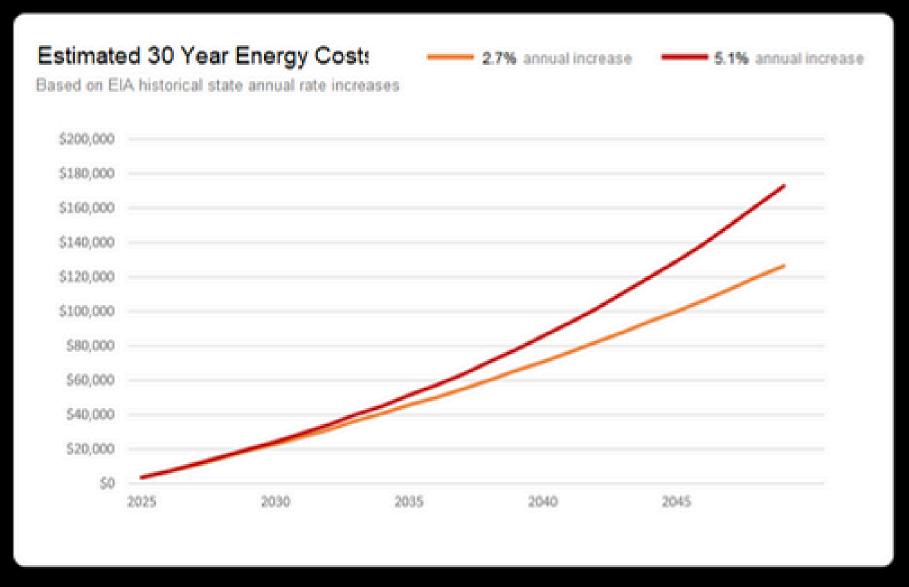

- Monetize your tax credits now
- Get all the protection and peace of mind in a simple monthly payment
- With a Solar Roof Loan, some of the payment will typically be offset with the savings from solar energy production
- New finance provider OneEthos has a competitive loan to offer Think of Solar Roof as an investment in your home that will pay you back in many ways
- Savings on your electricity bills
- Physical protection from the elements for your house
- Peace of mind by knowing you are as ready as you can be for power outages.

### Future Spend on Electricity — Texas

- This is YOUR current plan. How much will you to pay the utility instead of paying yourself for a better roof, battery and eventual savings?
- Example for average \$300 monthly bill in Texas (Low cost electricity & competition)
