Policy for Treating Minors

Policy: It is the policy of Hudson Dermatology that patients under the age of 18 must be seen in the presence of their parent and or legal guardian. A signed consent from the legal guardian/parent may be signed prior to the visit allowing the patient to be seen without the legal guardian/parent present.

The purpose of this policy is to...

- Ensure that the legal guardian/parent is aware of the minor's condition or conditions.
- To ensure that the patient understands and follows through with the recommended treatment plan.
- To ensure safety of the minor as well as the medical legal issues of the doctor and office.
