TRANSFORMING YOUR LIFE, AND EVERYTHING YOU TOUCH

I have learned how to walk through life differently. How to create more by doing less.

It's not that something is wrong. You are already a successful creator. But, we do it with rocks in our backpacks. Image that you can create. Imagine what your life, your family, and your practice can be. As you learn the skills and practices to get those rocks out! It's not a bout something wrong. It's about something more.

This is for you, and your business. It's for your clients and everyone you care about. Feel the impact you will have as you fill your interactions with new awareness.

How can you create a life with more peace, purpose, fulfillment, and joy? And, less of those things you don't want. That's the conversation I want to have! I want you to walk through life differently. My intention is for our time together to be life-changing. Inside of you, and with your financial success and everything you create on the outside.

SPEAKER REVIEWS

"Frankly it was gutsy on your part. Talking about feelings is not common place in professional settings, but as your message showed, our beliefs, feelings, filters, etc., are our primary barriers and blinders. Very powerful stuff."

- Ken Nugent, TiE Rockies member

"It's amazing to have your life's insights, learnings, and experience synthesized for us in a 2-hour session! I am sure that your session is going to have ripple effects and I'm just very clad that they got a chance to learn from you early in their 'life journey.'"

- Mohit Mukerjee VP of Programs, Watson University

"It was inspiring and heartfelt and I am glad that I was there for it. I heard several positive comments about it and you afterwards."

- Ray Hutchins, Chairman, TiE Rockies

"Thank you Don for taking the time to meet with us and share the unique and valuable perspective you bring to businesses and their owners. I believe each member of our organization can think of examples where your involvement could help a business owner realize his/her goals and compliment B2B's service offerings."

- Tom Beck, Partner, B2B CFO
