TO: All District Three Constituents
FROM: Executive Councilor Janet Stevens

DATE: September 1, 2022

FUEL ASSISTANCE – ENERGY ASSISTANCE – WEATHERIZATION PROGRAMS FOR NH DISTRICT THREE RESIDENTS

On August 1, 2022, energy supply rates increased drastically in New Hampshire with costs per kilowatt hour (kWh) doubling from 10.669 c/kWh to 22.566 c/kWh with one of New Hampshire's largest suppliers. The spike in electricity costs is attributed to the benchmark U.S. price for natural gas doubling in price from the prior year to \$9 per million BTU. Gas is the largest source of electric power in the U.S. and gas prices help set the cost of electricity around the country" Source. **In all, gas fueled about 38 percent of utility-scale power generation in the country last year, according to the U.S. Energy Information Administration.** In New Hampshire, natural gas is used to generate 25% of our state's electricity with nuclear energy providing 56%.

New Hampshire Department of Energy attributes these higher energy costs to global volatility of energy markets. "The higher prices we are seeing are the result of an energy supply crunch brought about by increased energy usage as the economy recovers from the COVID pandemic, uncertainties in supply stemming from the ongoing war in Ukraine, and growing inflation." More specifically these rate increases come at a time residents are dealing with the highest inflation rate since the 1980's.

Heading into the winter months, I would like to inform all District Three constituents of various fuel and energy assistance programs, energy efficiency programs, weatherization programs available through Southern New Hampshire Services, Unitil and Liberty Utilities home heating assistance (gas) and NHSaves.

Please call me at (603) 436-1645 if I can assist you and your family with these services.

SOUTHERN NH SERVICES (SNHS.com)

Southern New Hampshire Services is the Community Action Program for District Three/Rockingham County. District Three constituents can apply online or visit one of the five SNHS offices for **electric assistance, fuel assistance, weatherization assistance.**

Rockingham County Locations:
