TRAILS  
4  
TOTS

Come spring of 2022 we at Prairie Trail Co. are looking to start up "Trails 4 Tots". This free service will be available to parents of children aged 4-8 years of age. (Parents with older children are welcome to reach out to discuss their trail experience and the opportunity to manage the program for older kids.)

This will be an opportunity to use nature, combined with a pair of shoes, to build those lasting memories with your children.

By signing up to this free service with your name, children's names, phone number and email, you as the parent are taking full responsibility for your family while participating in 'Trails 4 Tots'. Due to the young age of children, a parent or guardian must be present for their child/children.
