ROOTS

refillery

Whether you are wanting to reduce plastic waste, reduce clutter in your home, save money and/or feel confident in the products you bring into your home, Roots Refillery will take care of you!

Refilling at Roots Refillery is fun! You can do it yourself or one of our Team members are happy to do it for you!

We sought out a fantastic Tare system that keeps everything simple and quick.

1. Weigh your container
2. Scan a Roots Refillery Tag
3. Attach Tag to Container
4. Fill your container with as little or much as you want
5. Check out.

We will then scan your container tokens and the weight of your container will be removed - thus, only paying for the product you placed inside.

Don't forget that we also deliver locally and provide pick up.
