# TRACK YOUR HOME'S SOLAR ENERGY USE

Track your home's solar power trends to maximize energy savings, lower your utility bill, and reduce your environmental footprint with Secure Manitoba's solar monitoring.

**The Solar Monitoring service package add-on allows you to:**

Quickly view the day's current and total energy production.

Track data for the day, week, last 30 days, or last 12 months.

See your impact in terms of trees or gallons of gas saved.
