Products Selection

Horizon Reverse Osmosis Line | The high performance systems that give you the most.

After 40 years of successfully delivering reliable and intuitive watermakers, We have perfected the Seafari series of watermakers to accommodate the most important needs of power and sail boaters. Whether you need larger water production, a flexible footprint, or low power consumption, there is a Seafari system that will deliver exactly what you need.

www.hrosystems.com

High-Capacity Systems

Application	Seafari Versatile	Vessel Size	Production	AC/DC	Operation
Sport fishing Power boats Charter boats		50 - 100 ft	450 - 1800 Gal/day	AC	Semi-Automatic

Mid-Range Systems

Application	Seafari Mini	Vessel Size	Production	AC/DC	Operation
Day cruisers Sailing yachts Trawlers		40 - 60 ft	170 - 750 Gal/day	DC (170 only) AC	Semi-Automatic

Low-Consumption Systems

Application	Seafari Quest	Vessel Size	Production	AC/DC	Operation
Sail boats Power boats		40 - 50 ft	200-600 Gal/day	DC	Automatic

Village Marine Line | The rugged systems that never stop

The Village Marine series of watermakers has provided fail-safe workhorses that deliver a sturdy performance in a variety of marine applications. Village Marine line has been renowned within high profile government disaster relief and military ships projects. Excellence in performance and quality is what you get when you choose a Village Marine watermaker.

Seafari Versatile

Along the coast or around the world, the Seafari Versatile is perfect for weekend fishing or blue water cruising. It's user-friendly operable system and rugged build withstands the ocean's harshest conditions, while maintaining its high level of quality.

Max Production:
1,800 Gal (6,815 Lit) / day*

Benefits

- Modular configuration allows you to control system remotely.
- Small footprint for limited engine room spaces.
- Easy access to main system parts for easy maintenance.
- Easy semi-auto operation.

LTM Series

Village
Marine

The LTM delivers a practical and reliable source of fresh water to boaters with high supply demands. The LTM gives you absolute water independence for various leisures such as extended voyages, ocean crossings, or fishing.

Max Production:
75 Gal (284 Lit) / hour*

Benefits

- Top mount membrane option for 400 & 600 models
- Semi-modular frame allows flexible installation options.
- Ideal for extended cruises or voyages.

The Stowaway

Village
Marine

The Stowaway (STW) offers you the option of having a single framed unit to place anywhere within your engine room. Simple to use and easy to install, this workhorse delivers a reliable source of fresh water during your cruises.

Max Production:

33 Gal (126 Lit) / hour*

Benefits

- Standard remote control touchscreen panel included.
- Semi-modular configuration allows flexible installation solutions.
- Emits low levels of noise and vibration during run time.

PW - Pure Water Series

**Village
Marine**

The Pure Water (PW) operates continuously and withstands the most rugged conditions. The Pure Water is not only capable of delivering industrial amounts of fresh water, but it also delivers superior performance and an extended service life.

Max Production:

2,000 Gal (7.6 m³) / day*

Benefits

- Operates continuously, capable of 24/7 production.
- Large production capacity with small footprint
- Framed, semi modular, and modular configuration options provides flexible installation solutions.
