

### **Citizen Advice West Somerset Email**

Good morning,

I am currently trying to attract funding from the Sommerset Community Fund for a project exploring the impact on local housing issues in the Hinkley Point impact zone, which is acknowledged as a factor in housing availability and housing rental or purchase pricing.

Minehead is an area that sits inside the zone and I was wondering whether I might be able to include a letter of support from you Parish Council that endorses our approach and how we will be aiming to expand an outreach service which we were offering up to the end of last year for the benefit of the community. Our aim is to make ourselves much more accessible to assist with related issues as they crop up.

Hopefully, with your support we can fund something for two years where your local community will benefit from easy access to West Somerset Citizens Advice.

Something on email, or ideally in a letter would be ideal, simply acknowledging that you might welcome our service into your area on a regular basis.
