

Proposed Budget Report 2025/2026

Introduction

In creating this draft budget, staff have undertaken a rigorous and inclusive approach to budgeting, drawing directly from the collective insights of our councillors, committees and advisory groups. This budget is not a document created in isolation, but a reflection of the council's understanding of our community's needs.

Through extensive consultations and deliberation, both the Clerk and the Responsible Financial Officer have systematically gathered feedback from across the council. Each recommendation, concern, and suggestion has been examined and considered, with the intention of the budget presented here authentically represents MTC's collective vision and practical operational requirements.

The proposed 2% precept increase is not an arbitrary figure, but a carefully calculated response to economic challenges, accounting for the inflationary pressures affecting both our residents and the town council itself. We have balanced the recognition of residents' financial pressures with the council's need to maintain sustainable services, which captures the council's commitment to fiscal responsibility and prudent resource allocation.

Anticipating the potential transfer of Somerset Council assets and services, our operational strategy will necessarily evolve. Guided by clear direction from councillors, committees and advisory groups, this budget – if approved – will drive a focused, service-providing council. The primary objective is to retain and maintain essential town services while operating within strict financial constraints.

Every line item in this budget reflects a careful balance between community needs and financial sustainability, making some difficult but necessary choices.

This report provides a clear overview of the proposed budget's key outcomes, outlining our financial approach, service delivery priorities, and the impacts of our financial planning. By presenting a transparent and straightforward report, the aim is to demonstrate our commitment to responsible, accountable local governance.

It is crucial to emphasise that this is a draft budget and is not the absolute final version. The document remains subject to modifications. Certain key aspects, including finalised insurance costs, potential asset transfers, and pending council votes on specific line items, mean that changes may occur before the budget is ultimately put forward for approval. Councillors are advised to view this as a working document that will undergo further scrutiny and potential revision.
