

iPUNKS

WHITEPAPER

INTRODUCTION

iPunks is the merger of two projects StreetPunks and InfiniteTwo. We merged these two projects together to combine our vision and goals to help generate higher rewards for our holders. This will be achieved by a partnership with Farmageddon. Where you will need to stake your tokens in a pool to receive your dividend tracker for the BNB rewards. If you do not stake your tokens you will not get a tracker for rewards. So, only those who stake will receive rewards from the dividend pool.

TOKENOMICS

Simple Tokenomics

12% Tax All Transactions
(not staking & unstaking)

6% to BNB Dividend Pool
(for those who are staking)

6% to Marketing Wallet to Grow
the Project and Do Future Special
Pools...

SUSTAINABILITY

Having holder getting rewards for being staked will make the project stronger and here for the long term. while rewarding loyal holders who know to stake their tokens to receive bnb rewards from the dividend pool

NFTs

The concept of Punks is all about NFTs. We will continue to grow the NFT side of this project to incorporate NFTs into future developments. Such as, P2E gaming NFT staking and more.
