

# **HYBRI-FLEX® FLOORING SYSTEMS**

Each year, property owners spend an estimated 2.4 billion dollars on facility repairs as a result of moisture-related flooring failures. Hybri-Flex® flooring systems were created to help solve the problems of flooring failure due to moisture migration.

All Hybri-Flex systems start with our unique basecoat system and, when combined with any of our three application-specific solutions and topcoats, provide the highest performance resinous floor systems on the market today.

# **BUILT-IN MOISTURE MITIGATION SYSTEM**

The unique Hybri-Flex system tolerates elevated moisture levels and can be installed in as few as 5 days after initial concrete pour\*.

# **SELF PRIMING IN MOST APPLICATIONS**

Completely eliminates a step and a full day in the installation process

#### **SUPERIOR BONDING**

The cemetitious basecoat bonds to concrete better than most floor systems.

# **CONTRIBUTE TO LEED® CREDITS**

#### **CUSTOM COLOR MATCHES AND BLENDS AVAILABLE**

\*Consult your local Dur-A-Flex representative for concrete mix specifications.

#### **HYBRI-FLEX Series M**

Utilizes our methyl methacrylate (MMA) topcoats in applications where you need:

- The fastest installation with minimal downtime
- Excellent wear resistance
- UV light resistance for indoor and outdoor use

### **HYBRI-FLEX MQ**

A 100% solids, decorative quartz system utilizing colored quartz aggregates with clear coatings. Quartz is available in two grades: Q28 (fine) and Q11 (coarse).

#### **HYBRI-FLEX MC**

A 100% solids, decorative chip system available in standard and custom (Macro only) blended colors and in two sizes: Macro and Micro

#### **HYBRI-FLEX MB**

A 100% solids, natural quartz system utilizing neutral colored aggregate with pigmented coatings. Quartz is available in two grades: Flintshot (fine) and Q-Rok (coarse).

#### **HYBRI-FLEX Series A**

Utilizes our Accelera topcoats in applications where you need:

- · No odor or fumes during installation
- · Fast installation and cure times
- A high gloss finish

#### **HYBRI-FLEX AQ**

A 100% solids, no odor, decorative quartz system. Quartz is available in blended and solid colors and in two grades: Q28 (fine) and Q(11).

#### **HYBRI-FLEX AB**

A 100% solids, no odor, natural quartz system utilizing neutral-colored flintshot (fine) aggregate with pigmented coatings.

#### **HYBRI-FLEX AC**

A 100% solids, no odor, decorative chip system available in standard and custom (Macro only) blended colors and in two sizes: Macro and Micro.

# **HYBRI-FLEX Series E**

Utilizes our epoxy topcoats in applications where you need:

- An economically and cost effective floor solution
- Stain and wear resistance
- Impact resistance

# **HYBRI-FLEX EQ**

A decorative color quartz system available in blended and solid colors and in two grades: Q28 (fine) and Q11 (coarse).

# **HYBRI-FLEX EC**

A decorative chip system available in standard and custom (Macro only) blended colors and in two sizes: Macro and Micro.

# **HYBRI-FLEX EB**

A natural quartz system utilizing neutral-colored aggregate with pigmented coatings. Quartz is available in two grades: Flintshot (fine) and Q-Rok (coarse).

# **HYBRI-FLEX ES**

A smooth finish system utilizing solid color resins with our wear resistant Armor Top® coating.
