# WIFI Temperature Humidity Detector
## Products Description

● The product and app display the current temperature and humidity value in real time.

●The detector would alarm and send notification to the user app when the temperature humidity goes above or below the preset value.

●APP support multiple devices, and multiple people could share one device

● Operating voltage: USB DC5V 1A (USB wire charge)

●Power=1.5W

●Built in rechargeable battery:3.7V/600mAH

●Battery backup time:5h

● Standby current≤25uA

●WIFI Band: 2.4G

●Detecting Temperature: -40  +120℃

●Working Humidity: 0%  100%RH (Non-condensation)

●Detection accuracy: ±1℃ 3%RH

●Alarm volume: 85db

## Parameter

●When it is triggered, make alarm sound and send alerts to APP

●Alarm light indication: the digital number on the screen flashes

●Wi-Fi pairing indication: light indicator flashes

●Can measure temperature and humidity, support data export in excel format

●Temperature unit: ℃ or °F

●Operation APP: Tuya Smart or Smart Life

## Package Includes

1* Wi-Fi Temperature Humidity Sensor
1* USB wire with power adapter
1* Double-sided tape
1* Temperature Humidity Detector Probe (1 meter cable, detachable)
1* English User Manual
(cable length can be customized to be longer)

Size: Diameter 77.8mm    Thickness: 20.8mm

77.8mm

20.8mm
With adhesive thickness

Speaker hole

Magnet
Could be attached to the metal surface directly
