

# Atwell Dental

Air quality matters, especially these days. In order to ensure we're all breathing the safest and cleanest air, Atwell Dental has installed advanced purification and air cleaning systems throughout the office.

## Surgically Clean Air

- Four advanced HEPA-Rx filtration units remove viruses, allergens, and gases from the air
- Six-stage technology sterilizes the air and re-energizes it with negative ions
- Surgically clean air increases comfort by reducing fatigue, itchy eyes, dry skin, coughing, and sneezing

## UV-C Light Treatment System

- Whole-office air purification
- Kills viruses, microbes, and bacteria
- Sterilizes biological contaminants
- Neutralizes odors and toxic volatile organic compounds (VOCs)
