DRF values its partnerships with the Sepaus Foundation, Zaman International, the Khaki Foundation and Lady Fatemeh Trust, The Quraishi Foundation and many other agencies.

Latest Development of Imam Al-Hujjah Hospital

The Year 2020 was by far one of the most challenging yet very inspiring years for Imam Al-Hujjah Hospital. On one front, the world witnessed a brutal pandemic. COVID-19 caused global humanitarian and financial crises in addition to healthcare predicaments that claimed many lives. However, 2020 was an inspiring year for IHH and its medical staff. By not only meeting the coronavirus challenges, IHH went above and beyond by advancing its scope of medical and surgical services as well. While receiving COVID-19 patients in the ER, the hospital still organized several workshops aiming at educating the public and raising awareness on the pandemic's mechanism of infection, severity of the illness, and ways of mitigating the adverse effects of the coronavirus. Moreover; the hospital hosted medical college students for training purposes as the public hospitals were reeling from the contagious aspect of the pandemic and underwent closures. IHH also donated several of its diagnostic kits to the public health ministry so it can expand its PCR diagnostic tests to the general population in the province of Karbala.

On the medical front, Imam Al-Hujjah Hospital reached its first milestone in 2020. IHH diagnostic laboratory was awarded the ISO certificate in clinical chemistry through ISO organization's partner, the Iraqi Accreditation System, IQAS. The second important achievement of IHH in December 2020 was the expansion of its state-of-the-art Intensive Care Unit (ICU). With six fully isolated glass-walled patient rooms, fully equipped with monitoring systems, ventilators, defibrillators and other life sustaining equipment. IHH is proud of its well-trained ICU nurses that care for

patients on a one-on-one basis. In addition, the surgical department hosted medical operations in multiple disciplines such as neurosurgery, spine, orthopedic surgeries, as well as ENT, cosmetic, urology, OBGYN, and general surgeries.

IHH is planning to open the cardiac surgeries center and expand in its neurosurgeries by mid 2021 as the effect of pandemic slows down.

IHH Funds spent on Medical equipment on 2020	
Endoscopy Equipment	\$ 98,000.00
Ear & Nose Endoscopy Device	\$ 40,000.00
Surgical Tools and Instruments	\$ 38,000.00

Women Medical Clinics	5886
Specialty Clinics	41525
Total	176,752

Join DRF's Ramadan Food Distribution and Eid Gift Giving

DRF's Board of Directors, employees, and volunteers would like to wish you a blessed and prosperous month of Ramadan. It has been an annual tradition at DRF to distribute tons of food packages to impoverished families during this holy month. Packages weigh up to 45lbs and include essential food staples along with masks, gloves, and sanitizers. Packages sustain a family of 4-5 for 5-7 days. Your Ramadan donations will help us distribute nourishing food supplies for Iftar and Suhur meals to families severely impacted by COVID-19 and poverty. Each package costs only \$25. With a donation of \$100 you may feed a family for the entire month of Ramadan and get the blessings of offering Iftar and Suhur meals. Remember, your Ramadan donations save orphans and needy families from hunger. Ramadan Mubarak, and may Allah bless you.
