Subject: **Letter of Support for the proposed Granite SUP – 25-002**

Dear County Commissioners,

I am writing to formally express my strong support for Granite SUP-25-002, the proposed gravel extraction pit known as Merrills Pit.

As a community member, my primary concern is the preservation of our local economy. Granite Excavation is a vital employer in our region, providing jobs for over 250 individuals. A significant number of these employees reside in and around Emmett, and approving this application ensures these families can continue to live and work locally within Gem County.

Granite Excavation has consistently demonstrated a commitment to Idaho through responsible operations. It is important to note that the proposed Merrills Pit is situated within the Gem County Gravel Extraction Area, as designated by Gem County Ordinance No. 2013-01. This location is specifically intended for this type of land use, aligning with the county's long-term planning goals.

Furthermore, I am impressed by the proactive measures taken by Granite representatives. By voluntarily adding conditions of approval to their own application that exceed standard county requirements, they have proven that they are dedicated to mitigating impacts on nearby residents and the surrounding community.

Sincerely,

(Signature)
