Dear Members of the Board,

I am writing in support of the Merrill's Pit – Mineral Extraction SUP submitted by Granite Companies, LLC.

From a supply and transportation standpoint, local aggregate production is critical to reducing hauling distances, minimizing road wear, and improving overall efficiency. When materials are sourced locally, it benefits contractors, public agencies, and the county's transportation network.

Approval of this application will strengthen local supply chains and support responsible infrastructure development throughout Gem County.

Sincerely,

(Signature)
