## The President's Message:

### Serving New Communities

As CARF celebrating the anniversary of the third year, we are proud to announce our expansion into new communities and regions. During Ramadan, alongside our ongoing humanitarian efforts in Iraq, CARF extended its reach to a small village in Africa. These initiatives signify our commitment to expanding our services to diverse regions across the globe, as our resources allow.

Our food and Iftar distribution in Africa reached approximately 300 families.

For just \$2.50 per person or \$25 to provide for a group of 10 people, you can support our continued efforts in feeding the underprivileged in Africa. We invite you to join us in spreading the blessings of this impactful initiative with those in need. Your generosity creates a significant impact in improving the lives of others.

**Sayed Ali Ghazvini**

## A Woman in Her 50s Found Relief from Complications related to Mental Health Disorder Thanks to the Expertise of Doctors at Imam Al-Hajjah Hospital.

The Department of Internal Medicine at Imam Al-Hajjah Hospital successfully treated a woman in her 50s who had been experiencing severe disorders and sudden loss of consciousness due to complications from her use of psychological medication.

Dr. Amir Hamed, an internal medicine specialist at Imam Al-Hajjah Hospital, explained: "The patient had chronic diseases and was taking multiple antipsychotic drugs for deteriorating mental health."

"She started experiencing sudden loss of consciousness, fever, convulsions, and hemodynamic instability, along with significant laboratory abnormalities such as high blood sodium, severe kidney injury, elevated inflammatory markers, and signs of muscle breakdown," he added.

"These symptoms indicated a severe systemic disease that could be related to adverse drug reactions, infectious diseases, or underlying metabolic disorders," Dr. Amir Hamed clarified.

The patient was admitted to Imam Al-Hajjah Hospital, where she received a diagnosis and appropriate treatment. Within a few days, her condition significantly improved, and she was discharged from the hospital.

Successful treatment at Imam Al-Hajjah Hospital highlights the importance of specialized care and expertise in managing complex medical cases.

## Food Distribution IN AFRICA

With the grace of God and your generous support, CARF has launched a new chapter in its activities during the month of Ramadan, coinciding with our 20th anniversary. We are now providing services to some underserved communities in Africa.

This marks the second time CARF has successfully distributed food to those in need in Africa. We urge you to continue your support so that we can expand our services and reach as many people in need as possible.

For just \$2.50 per person or \$25 to provide for a group of 10 people, you can contribute to feeding the underprivileged in Africa. Join us in sharing the blessings of this great initiative with those who are in need. Your generosity makes a meaningful difference in the lives of others.

# Introducing Some of our Exceptional Graduates

This year, as in previous years, has been truly remarkable for CARF schools. Thanks to your generosity in supporting the excellent learning environment and quality education provided by our schools and dedicated teachers, many of the orphan students have achieved remarkable success. All graduates have been accepted into prestigious colleges. Here are some of our outstanding graduates.

Meet Haneen, a shining example of perseverance and dedication of a female orphan.

From being a dedicated student at Al Salihat Girls Academy to pursuing her dreams in radiology technologies at Al Zahra University, Haneen's journey inspires us all. We are incredibly proud of her achievements!

Meet Farah, a shining example of perseverance

She has recently graduated from Al Salihat Academy and has embarked on her journey towards a career in healthcare. Farah's success is a testament to the power of determination and to the success of quality education in realizing one's dreams. Farah is an orphan.

Together, we can empower more young minds like Farah's.

These shining stars graduated from Al-Sadiq Preschool for Orphans this year.

Meet Mohammad Ali Murtadha another orphan. He is a grade 7 student in Al-Mashariq Junior High and he has passed all his exams with highest scores. He received his certificate of excellence from the principal Mr. Ismail Al-Shama'a.

## Your Generosity Makes the Dreams of Orphan Children Come True

### Meet Murtada Ali Reda

A student with a remarkable journey; starting at Imam Al-Sadiq School, he received essential care, education, and support. Now at Al-Mashariq Junior High, his dream of becoming a soldier to serve his country shines bright. Let's rally behind Murtada and other orphans, nurturing their aspirations and potential. Your support can make great changes to the lives of these young orphans. For only \$60 a month, or \$720 a year, you may sponsor one of the orphans by providing education and nourishment.
