

OUR FAMILIES ARE TOO IMPORTANT TO US.

-by Arlene Lowery

As a grandma who found herself often in crisis over these past years, I should never have had to fight these public servants/ defendants' actions but I had to!

All of what I've documented was too much to bear without God.

Often I'd pray and ask God for help and direction as to what to do and He kept guiding me. He even guided me *to the halls of justice* where I thought we would receive justice and other vulnerable babies, children and families would be better off as a result.

This website was not intended to embarrass but to expose the truth and to publicly release forgiveness to those who have hurt us.

We hope this website has **raised public awareness** into the dire circumstances which exist for too many babies and children 'at risk', educate you as to how enraged they become when abuse happens to them. Hopefully it will make us all recognize that these children and adult children need deep healing-*intensive rehabilitation* to recover and be productive. The intervention must begin early and involve the justice system, social and mental health systems involving their families.

The competency of our Child Protection Services must have the highest standards. **Children must never be returned to their parents before justice and rehab are achieved. Too many tragedies-too many deaths-it has to STOP!**

As you will note in my Counter Offer to the Offer made to me by the Attorney General, Saskatchewan Government, which I refer to here as The Bribe was an insult.

The issues arising from this lawsuit have officially ended but this entire matter *is not moot* as these Canadian courts deemed.

*Self-litigants are here to stay as most cannot afford 'high-priced' lawyers. Administering the law is BIG BUSINESS for those with 'deep pockets' and influence. The 'voices of the vulnerable' whom we call 'bruised reeds' are silenced. **They need us!***

This has been a difficult process. Yet.....

we must NEVER forget the plight of the vulnerable and the fatherless.

Our plea to all who have anything to do in protecting infants and children and upholding justice for them, is that you ***LISTEN TO THE VOICES OF THE BRUISED REEDS*** as they know what happened to them.

* Their words, their stories, their drawings and the physical evidence all corroborate one another to come to a **KNOWLEDGE of the TRUTH.**

Every time we fail to do the above, we deny justice to the *Voices of the Bruised Reeds.*

Charlene and I officially close our websites for

His 'bruised reeds' with a wish that you will find Christ in Christmas this season.

God bless you and keep you, always ----Shalom
