

# Professional Hair Wellness Solution

## No Discomfort. No Trauma. No Shedding.

Hair loss can significantly affect the quality of life for both men and women, as evidenced by a study in the Journal of the American Academy of Dermatology<sup>1</sup>. With over 80 million individuals in the US<sup>2</sup> suffering from hair loss and spending billions annually on treatments<sup>3</sup>, there is a growing demand for effective prevention and restoration options.

Enter the Alma TED<sup>®</sup>, a non-invasive solution that combines patented technology with proprietary hair care formulation, providing a unique and unmatched treatment option that surpasses existing alternatives.

### Patented Technology + Proprietary Formulation

- Clinically validated in over 20 published studies, Alma TED's Impact Delivery™ system and patented Tip (Patent No: US 10,238,849 B2) effectively enhances topical application.
- The TED+ Hair Care Formula contains essential ingredients that support optimal hair and scalp health—moisturizing and improving the appearance of the hair.

# Clinically Validated

In a clinical study presented at the American Academy of Dermatology (N=50)<sup>4</sup>, this treatment demonstrated:

**96%**

of subjects reported noticeable hair growth

**98%**

of subjects experienced reduced shedding

Subjects expressed a high satisfaction score of

**4.3/5**

## Changes to Hair Shedding and Growth

**98%** (49/50) Reported Decreased Shedding  
**96%** (48/50) Reported Increased Growth
