INTRODUCTION

Since 1888, over 135 years Duchess China has been designing and manufacturing ranges of fine bone china collections in the heart of the world ceramic industry, Stoke-on-Trent, Staffordshire, England.

Duchess are one of the few true remaining fine bone china producers remaining in the UK and this is reflected in our outstanding quality and sheer variety of product, servicing clients all over the world from luxury tableware to bespoke giftware.

Our manufacturing process is fully sustainable in its use of raw materials and processes, lead by generations of hand skilled craftsmanship, this gives our clients a product which is beautiful not only in quality, shape and design, but honours the backstamp “made in Staffordshire”, the seal of UK made authenticity.

Working closely and understanding our clients needs, our full manufacturing facilities from clay to finished products are enhanced with extra in house services which include concept design, new shape modelling, silk screen printing, gilding and prestige hand painting.
