

A person is working at a desk in a bright, modern office environment. They are holding a smartphone in their right hand, displaying a photo of a green plant. Their left hand is resting on the laptop keyboard. A blue cup of coffee sits on the desk to the left. In the background, a large potted plant with green leaves is visible. The text "5 Steps to Start Digital Marketing" is overlaid on the image in a light green box.

5 Steps to Start Digital Marketing

1 *Find Your Passion & Core Topic*

Choose a topic you truly care about – something you could talk about for years without getting bored.

2 *Know Your Audience*

Understand who you're speaking to. What are their struggles, dreams, and what value can you give them?

3 *Choose Your Platform*

Start with 1–2 platforms where your audience spends time – and where you enjoy creating.

4 *Build Trust with Simple Content*

Share useful tips, stories, or experiences. People connect with honesty and consistency.

5 *Just Start – Adjust Along the Way*

Don't wait for perfection. Start now, and let your brand evolve as you grow.
