

The LIST for When it's Time to Move!

Moving Company

Call around and get price quotes! Don't forget – make sure to ask about their Driving Fees “to and from” their location...they normally charge you an extra hour for this! Make sure to ask about their Insurance as well – sometimes it's just an extra that is sold that has no real value!

Insurance

Insurance is there to protect you! Don't cancel insurance on your present home until you have received funds from the sale! It's a good idea to insure your new home a few days before possession as well!

Lawyer

Your solicitor's office should be in contact with you a minimum of 2 weeks prior to possession – make sure to call them if they don't call you!

Utility Contacts
